

Motorola v3 SyncML

Setting up Motorola V3 to synchronize with SaveMyContacts Please ensure your WAP provider has configured your phone for WAP/GPRS access.

SyncML set up (Step by step guide)

- 1) On the root menu there should be 4 icons.
- 2) Press the '-' key by the cursor keys on the phones keypad a secondary menu should appear.
- 3) In the bottom right corner there will be an option called *settings* which is symbolized by a spanner. Select this option
- 4) Another menu should appear on this one select the option *connection*.
- 5) When *connection* is selected two options should appear *Bluetooth* and *Sync*. Choose the *sync* option.
- 7) Press the menu key '-' to create a new profile.
- 9) The new screen should display.
 - 9.1) *Settings* name. Enter SaveMyContacts
 - 9.2) *The Url* which is the address of the SaveMyContacts server.
www.savemycontacts.com/sync.jsp
 - 9.3) *Username* this would be the telephone number.
 - 9.4) *Password* this is the pin for your account.
 - 9.5) *Data paths* select *contacts* and enter the name 'contacts'
- 10) Store the details.
- 11) To sync select SaveMyContacts from the list and click the select option.
The phone will start syncing.
- 12) To check the status of your last sync and its results click the menu key '-' on SaveMyContacts profile and you can now view the logs for the last sync.
